

“ —

“We engaged with BB Merchant Services in following an extensive review of our merchant acquiring relationships across our Group brands, aiming to reduce the number of acquiring relationships and consolidate and appoint a single provider.

Initial proposals revealed significant scope for cost reduction, but we engaged BB Merchant Services to conduct an independent assessment, including a peer-based comparison across their extensive database.

This benchmarking exercise revealed significant scope for further savings, and we entrusted BB Merchant Services to negotiate directly with our preferred supplier, resulting in a compelling outcome which has exceeded our expectations.”

Graeme Barnes, Director of Capital Markets
